

# CARL GIPSON CENTER COVID-19 POLICIES

The VOAWW Carl Gipson Center's COVID-19 policies follow guidance developed by the Snohomish Health District and the State of Washington, and is informed by the Centers for Disease Control and Prevention (CDC) and Washington State Department of Health guidelines.

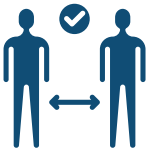

## VACCINATION POLICY

Proof of vaccination against Covid-19 will be required for all Carl Gipson Center staff, volunteers, members and guests. VOAWW has a process for those applying for Medical or Religious exemptions, and those forms may be found at the Center during normal operating hours or: [voaww.org/gipson-center](https://voaww.org/gipson-center). We do not accept negative Covid-19 tests in lieu of vaccinations.

## MASK POLICY

Masks are required while in the Carl Gipson Center, unless individuals are eating or drinking, or working alone in an office. In accordance with local regulations, our mask policy extends to fitness classes and all Gipson Center activities.

## SOCIAL DISTANCING

We request that staff, volunteers, members and guests maintain a distance of six feet whenever possible.

## PERSONAL PROTECTIVE EQUIPMENT (PPE) AND CLEANING:

The Center will have disposable masks available for use and additional PPE on hand as the need arises. We will follow the PPE and cleaning guidelines outlined in the "Getting To Safe Guide" developed by the City of Everett and Snohomish Health District and available here:

## COVID-19 NOTIFICATIONS:

VOAWW Carl Gipson Center staff will maintain a record of who is in the Center during operating hours, which may be necessary if/when we need to notify others if they were exposed to someone who has tested positive for COVID-19. We ask that anyone who has tested positive for COVID-19 and visited the Center within the previous 14 days, please contact the Center immediately.
