resources.*

Arlington Community Resource Center

From our start as a response to the 2014 Oso Mudslide tragedy, our resource center has helped thousands get connected to the services and resources they need.

Our guiding philosophy is to meet people where they are at, walk alongside them to get what they need, and to equip and empower them to be able to keep meeting those needs in the future.

Here are some of the services we provide:

- Affordable housing search
- Housing applications
- Rent & Utility Assistance (Dependent on funding)
- Job search, resume, and cover letter
- Connection to mental health services
- Government benefit applications
- Treatment recovery services
- Hot meals served daily
- Diapers/wipes
- Household essentials
- Cold weather supplies

If you have a need that isn't listed above, please reach out. We would love to help you!
