

The Carl Gipson Center offers a safe and caring environment of continued learning and social interaction.

In partnership with the City of Everett, VOA took over the operations of the Carl Gipson Center in 2021 on a 14-year lease that connects seniors and community members to social interaction, physical fitness, and pathways to wellbeing.

Dozens of activities from knitting to clogging to community experiences, free coffee each morning for members, and daily lunch provided by Homage are some of the ways we provide a welcoming experience for all who come through our doors.

Financial aid is available for those who require assistance with payment of the annual membership fee.
